

DIRECT FIT 79-99 MUSTANG LADDER BAR or 4-LINK REAR FRAME PACKAGE

Specifically designed for Ford's most popular "pony car" this S & W frame is designed to fit up to 15x33 drag tires or 31x18.5 Hoosier street radial tires. This frame comes completely welded with 2x3 frame rails, front crossmember, ladder bar or 4-link front mounts, rear shock crossmember

with upper shock mounts, and a panhard bar mount. The complete welded frame unit requires rear floor pan removal and must be used with (at least) an 8 point roll bar to support your new welded frame. The standard packages include our S&W Pro/Street or the ET bracket racer on a limited budget. This kit features standard non-adjustable shocks, PVC coated coil springs (custom matched to your application) and adjustable lower mounts with 5-1/2" of ride height adjustment and all necessary mounting hardware.

MUSTANG 4-LINK ANTI-ROLL

By equalizing traction & preventing body roll, anti-roll or rear torsion bars, as they are sometimes called, have been shown to produce consistently quicker 60' times. This new kit uses only the highest quality components - a solid, splined 4130 steel torsion shaft (not a piece of tubing as used by some of our competitors), splined & machined, billet arms, 4130 mounting tube & supports, plus all necessary rod ends, links and hardware.

Item No.	Description	
40-007	Anti-Roll bar for Mustang 4 link frame	\$259⁹⁵
